

Accelerate Your Digital Transformation with Ready-to-Deploy MVPs

Fast, Scalable, and AI-Driven Solutions to Future-Proof Your Business

Organizations today need to leverage data, AI, and automation to stay competitive. Acuvate's Ready-to-Deploy MVP Solutions are designed to help you kickstart or accelerate your digital transformation initiatives with rapid implementation and measurable impact.

Built on emerging technologies like Microsoft Fabric, Digital Twins, and AI-driven analytics, our MVPs are designed to deliver quick wins in 4-8 weeks while ensuring scalability, security, and business value.

Choose Your Fast-Track MVP Solution

Turn Ideas into Impact – Fast, Scalable, and Data-Driven

Acuvate Data Healthcheck

Assess, Optimize & Build a Strong Data Foundation

Companies today handle large volumes of data across multiple platforms, often leading to fragmentation, governance issues, and inefficiencies that slow down AI adoption. Our Data Healthcheck provides a comprehensive assessment of your data ecosystem, identifies gaps, and delivers a clear roadmap for AI-driven transformation.

- Current-State Analysis – Review architecture, interfaces, and data silos.
- Data Strategy Roadmap – Define a future-proofed data governance and AI adoption framework.
- Quick-Win MVP Recommendations – Identify immediate enhancements for faster business impact.
- Data Governance & Compliance – Ensure regulatory adherence and enterprise-wide security.

Investment:

£35K - £40K | €40K – €46K | \$44K – \$50K

Timeline:

4-6 weeks

Microsoft Fabric Deployment

Powered by Acuweave – a Microsoft Fabric Accelerator

Acuvate AcuWeave seamlessly migrates existing databases from Microsoft Synapse, on-premise Microsoft SQL Server, or on-premise Oracle DBMS to Microsoft Fabric OneLake.

Microsoft Fabric offers a centralized, AI-powered data ecosystem that streamlines integration, governance, and analytics. Acuvate ensures a seamless deployment, enabling organizations to eliminate silos, enhance security, and unlock real-time insights.

- Optimized Microsoft Fabric Configuration – Custom setup, Azure sizing & governance implementation.
- AI-Powered Insights & Automation – Enable Copilot AI for predictive analytics and automation.
- Power BI Dashboards – Develop two Power BI dashboards for enhanced visualization & reporting.

Investment:

£50K - £55K | €58K – €64K | \$63K – \$69K

Timeline:

6-8 weeks

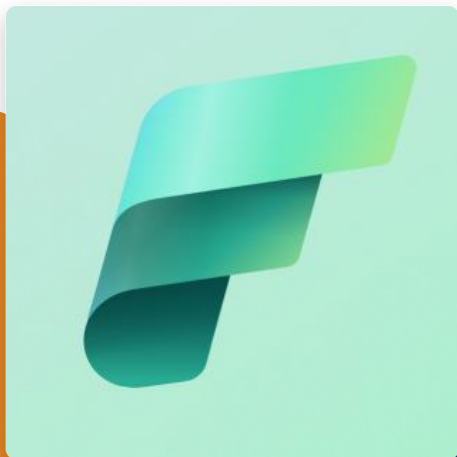

Tableau to Microsoft Fabric Power BI Migration

Seamlessly Transition to AI-Powered Analytics

Are Tableau's high licensing costs limiting your scalability? Power BI, integrated with Microsoft Fabric, offers cost-effective, AI-powered analytics with improved visualization, automation, and real-time insights.

- Optimized Microsoft Fabric Setup – Configured for seamless scalability & performance.
- Seamless Dashboard Migration – Migrate up to three Tableau dashboards to Power BI.
- AI-Enhanced Analytics – Unlock predictive insights, automated intelligence & natural language queries.
- Security & Compliance – Ensure strong governance and secure data handling.

Investment:

£25K - £30K | €29K – €35K | \$32K – \$38K

Timeline:

4-5 weeks

Digital Twin **Integration**

Simulate, Monitor & Optimize Operations with AI-Powered Digital Twins

Digital Twin technology bridges the gap between physical operations and digital intelligence. Powered by AcuPrism & KDI Kognitwin, this solution provides real-time monitoring, predictive analytics, and enhanced operational efficiency for industries like manufacturing, energy, and utilities.

- Custom KDI Kognitwin Setup – Deploy a cloud-based, AI-driven digital twin tailored to your operations.
- Seamless Data Integration – Connect IoT, SAP ERP, Aveva PI, and other enterprise systems.
- AI-Driven Predictive Maintenance – Prevent failures, reduce downtime, and improve operational resilience.
- Laser Scanning (Optional) – Convert physical assets into 3D models for enhanced simulations.
- Real-Time Visualization – Enable interactive monitoring & analytics with live operational data.

Investment:

£45K - £50K | €53K – €59K | \$57K – \$63K

Timeline:

6-8 weeks

Oil & Gas **Production Optimization**

Leverage AI to Enhance Efficiency, Reduce Downtime & Maximize Uptime

Optimize oil & gas production with AI-powered analytics, real-time monitoring, and predictive maintenance. Our solution, powered by AcuPrism, provides enhanced decision-making through AI-driven dashboards and automated insights.

AI-Powered Operational Insights – Optimize production processes, energy usage, and asset performance.

- Multi-Source Data Integration – Connect two critical data sources for enhanced decision-making.
- Automated Compliance & Governance – Ensure regulatory adherence and streamlined governance.
- Custom Power BI Dashboards – Monitor key production KPIs, detect anomalies, and optimize workflows.

Investment:

£45K - £50K | €53K – €59K | \$57K – \$63K

Timeline:

5-7 weeks

Manufacturing **OEE Optimization**

Improve Overall Equipment Effectiveness (OEE) with AI & Data-Driven Insights

Microsoft Fabric offers a centralized, AI-powered data ecosystem that streamlines integration, governance, and analytics. Acuvate ensures a seamless deployment, enabling organizations to eliminate silos, enhance security, and unlock real-time insights.

- Flexible Deployment – Choose Databricks or Microsoft Fabric version of AcuPrism.
- Multi-Source Data Integration – Select two data sources and load real-time or pre-processed data into AcuPrism.
- AI-Enhanced Dashboards – Develop two Power BI dashboards to monitor key OEE metrics.
- Data Governance Implementation – Ensure compliance and structured data management.

Investment:

£45K - £50K | €53K – €59K | \$57K – \$63K

Timeline:

5-7 weeks

Why Choose Acuvate's Ready-to-Deploy MVPs?

Industry Expertise

Decades of experience in AI, data, and digital transformation.

Faster ROI

Quick, high-impact solutions delivering business value within weeks.

Scalability & Security

Built for future-proofed business intelligence.

Seamless Integration

Works with Microsoft, SAP, Salesforce, AWS & more.

AI-Powered Acceleration

Unlock automation, intelligence & operational efficiency.

About Us: How We Make a Difference

“At Acuvate, we prioritize customer-centric innovation, driving us to proactively invest in the state-of-art technology to address real-world business challenges”

Develops comprehensive digital twins that mirror physical systems, allowing for real-time monitoring, simulation, and analysis. This integration ensures consistent operational performance and strategic decision-making based on accurate data insights
